ALBERTON J. NICHOLS,

Treasurer.

I hereby certify that I have examined the foregoing accounts of the treasurer of the school district of Webster, and find them correctly cast and properly vouched.

ARTHUR E. FRENCH.

REPORT OF THE SCHOOL BOARD

TO THE CITIZENS OF WEBSTER :

The three schools of the town district have just closed a successful term of nine weeks, making thirty-three weeks that they have been in session since March, 1917.

One of the chief events of the early summer was the observance of Memorial Day by the schools. We think all of the large audience, who awaited their coming, were proud of the fine appearance of the schools as they marched into the Town Hall led by their teachers, Miss Sanborn, Miss Cram, and Miss Maxwell, and we know that the thanks of all were due teachers and pupils for the most excellent programme of fifty-two numbers presented.

The opening weeks of the school year were saddened by the death of Mrs. Hattie A. Nichols, who had confidently expected through many weeks of serious illness to go on with her work for the schools, to which she was sincerely devoted, but she passed on to the higher life, and the school board, her church, and her family lost one of their most valued members. The schools were closed in respect for the good friend whose busy, useful life was done.

Mrs. Arthur E. French was appointed to fill the vacancy caused by the death of Mrs. Nichols, but could not be persuaded to accept the appointment.

Some time later Mr. Luther C. Putney, who had seen much service on the school board, was appointed, and became the third member of the board.

Our schools have been for the most part harmonious and successful throughout the year.

An epidemic of whooping cough and measles disturbed the attendance of all the schools and delayed the opening of the term just closed.

More than half of the Bashan pupils suffered from measles ; fortunately all recovered throughout the town and the interest and attend-

ance has been good in spite of the great severity of the winter.

School boards are constantly being urged by the state department and by all writers on educational matters, to make the school buildings and grounds pleasant and attractive, and to see that everything is put in the best possible order and kept so. We believe this can never be successfully done until parents co-operate with the school board and require their children to exercise proper care in the use of the school books and equipment, and each do their part to keep school houses and grounds in a neat and orderly manner, rather than to destroy property and create disorder.

A great deal is being done in some sections of our state to organize and direct the plays and games of the pupils and give to these recreation periods an educational value as well as make them a means of physical development.

More and more it is being realized that one of the teachers' most important duties is the organization and control of the play ground. We may not be able to hire teachers trained for this work, but we can at least have a place where children may play without trespassing, as they are obliged to do in some of our schools, or play in the street. The greatest need of land is at Putney Hill school, and the people of the district will be asked to raise money to purchase land to enlarge their present school yard.

With grateful appreciation for the efforts of all who have contributed to the success and upbuilding of our schools, we submit this report.

J. STELLA HOLMES,

Chairman of School Board.

February 15, 1918.
